Who are we?

A Brief Story About 3TS

We are a small team of seasoned ICT professionals based in Belgium, at the heart of Europe, dedicated to cybersecurity.

With extensive experience in the demanding field of cybersecurity, **our mission is clear: to help legitimate organizations strengthen their defenses and protect themselves against modern cybercriminal threats.**

We primarily provide consulting services built on reliable, professional-grade open-source technologies. We also develop specialized security software, including real-time monitoring and scanning solutions designed to strengthen and streamline your overall security posture.

What services do we offer?

01

Governance, Risk Assessment, Security Audits

We accompany your organization in this journey, using proven industry standards (NIST's CSF) and tools (Monarc).

02

Penetration testing

We do manual and full autonomous (AI based) penetration tests.

03

NIS2

We accompany essential and important organizations in complying with the demanding NIS2 directive.

04

Integration

We perform installations, configuration and connection on most network devices, servers and applications.

05

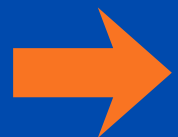

Development

With decades of coding experience in many programming languages we can build custom applications from web apps to Linux kernel updates.

06

Education

We provide both technical and non-technical training.

Why partner with us?

Holistic Expertise

We have real, proven expertise and experience in most of the cybersecurity domains.

Agility

As a small team we are agile and we work fully remotely in most projects and come on-site when needed or requested by our customers. We follow agile/scrum methodology, but on specific cases we also support waterfall model.

Near site

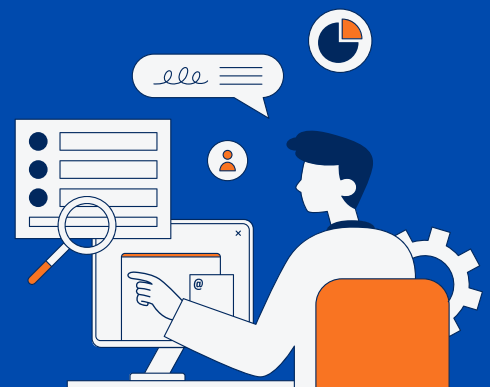

Being physically close to our customers allows us to better understand your needs and act fast, even for short interventions.

Long-term Partnership

We aim to build long-term relations with our customers with trust as the foundation.

Competitive prices

By carefully selecting free and open source solutions whenever possible, we are able to offer very competitive prices. We can work on a fixed-price or time-and-materials basis.

THANK YOU

By partnering with a experimented, small and local company like 3TS, you can expect to receive the excellent service at a highly competitive price.

Thank you for choosing 3TS.

Pricing and Contact

Via our web site, email or by direct call.
